## MAGICOLOR

In the gorgeous **Magicolor** series, children discover colours in a unique way.

They just have to apply water on the white illustrations to make vivid colours appear. Water can be applied with a sponge or with a brush. And the fun doesn't stop here: let it dry and they can start all over again.

- Magic painting technology allowing endless practice
- Fun and interactive

- 148 x 210 mm
- 7 spreads including cover
