

# GET SMART WITH THE SMURFS!

Reference: S0190

**New animated movie for Spring 2017!**

After the success of our first Smurf collections and still in close collaboration with IMPS, we have developed a new educational series for preschool aged children. The exercises are especially designed to help children get the necessary basics before entering primary school. Each title concentrates on a specific theme: Writing, Mathematics and Observation.

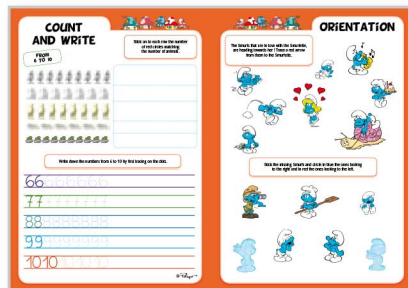

With the help of colourful stickers, children will have fun working through the exercises. Also, as children never get enough of stickers, numerous other decorative stickers are also included in each book!

## LEARN WITH THE SMURFS

[Apprends avec les Schtroumpfs]

**Writing  
Mathematics  
Observation**
