

Face Painting and Masks

Grimages et masques [J0278]

Kids will have fun painting the children's faces in this book, with the help of the models offered: a pharaoh, a Tahitian, a clown, a knight... If they want, they can even use the models to do real face painting on themselves or their friends! They can also let their imagination fly and design their own personal makeup, thanks to the blank faces in this book. Last but not least, they'll find many stickers to complete their artwork. If they enjoy dressing up, they'll find four pre-cut masks in each book, with one side coloured in and the other blank, waiting for them to colour it in.
