- Wipe-clean pages throughout
- Felt-tip pen inside blister on front cover
- Bestselling collection (almost a million copies sold)

ALSO AVAILABLE :

A brand-new title in our popular, educational "wipe-clean" series!

This title aims to help develop children's observational skills. It contains a wide range of exercises that can be practised over and over again thanks to the fully wipe-clean pages and the easily erasable felt-tip pen provided!

Circle all the pieces of fruit.

Hot or cold? Link up the objects on the right with either the fridge or the oven.

Match up each object in the middle with the person who might use it in their job.

Draw 2 fried eggs in the chef's frying pan.

Draw a bird in the sky, a ball between the dog and the child, some flowers under the bench, a butterfly fluttering above the slide, and a nest in the tree.

Draw a solid circle around any dogs running to the right and a dotted circle around any running to the left.

Look at the 3 objects on the table to the left. Draw the same objects under the big table below.

Draw the same number of spots on the left-hand side of the butterfly.
