

Ref.: S0234

- 4 titles
- 32 pages + cover
- 210 x 297 mm
- Wire-stitched

- Developing & honing motor skills
- Writing & vocabulary
- Drawing & colouring

A collection of activities well-loved by pre-school kids! Tracing over dotted lines is an excellent way of developing hand-eye coordination. Children will also learn to write their first words while expanding their vocabulary.

Plenty of fun can also be had by drawing and colouring in their artworks.

The accompanying QR codes allow children to test their motricity and colouring skills in a fun digital format.
